Important Notice

Due to the nature of wireless communications, transmission and reception of data can never be guaranteed. Data may be delayed, corrupted (i.e., have errors) or be totally lost. Although significant delays or losses of data are rare when wireless devices such as this device are used in a normal manner with well-constructed network, this device should not be used in situations where failure to transmit or receive data could result in damage of any kind to the user or any other party, including but not limited to personal injury, death, or loss of property. This device accepts no responsibility for damages of any kind resulting from delays or errors in data transmission, or for failure of this device to transmit or receive such data.

Safety and Hazards

Do not operate this device in areas where blasting is in progress, where explosive atmospheres may be present, near medical equipment, near life support equipment, or any equipment which may be susceptible to any form of radio interference. In such areas, this device MUST BE POWERED OFF. This device can transmit signals that could interfere with this equipment. Do not operate this device in any aircraft, whether the aircraft is on the ground or in flight and it MUST BE POWERED OFF when in an aircraft. When operating, this device can transmit signals that could interfere with various onboard systems.

Note: Some airlines may permit the use of cellular phones while the aircraft is on the ground and the door is opened.

The driver or operator of any vehicle should not operate this device while in control of a vehicle. Doing so will detract from the driver or operator's control and operation of that vehicle. In some states and provinces, operating such communications devices while in control of a vehicle is an offence

Limitations of Liability

This manual is provided "as is". We makes no warranties of any kind, either expressed or implied, including any implied warranties of merchantability, fitness for a particular purpose, or non-infringement. The recipient of the manual shall endorse all risks arising from its use.

The information in this manual is subject to change without notice and does not represent a commitment on the part of this device.

WE SPECIFICALLY DISCLAIM LIABILITY FOR ANY AND ALL DIRECT, INDIRECT, SPECIAL, GENERAL, INCIDENTAL, CONSEQUENTIAL, PUNITIVE OR EXEMPLARY DAMAGES INCLUDING, BUT NOT LIMITED TO, LOSS OF PROFITS OR REVENUE OR ANTICIPATED PROFITS OR REVENUE ARISING OUT OF THEUSE OR INABILITY TO USE ANY PRODUCT, EVEN IF WE HAVE BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES OR THEY ARE FORESEEABLE OR FOR CLAIMS BY ANY THIRD PARTY.

Notwithstanding the foregoing, in no event shall we aggregate liability arising under or in connection with our product, regardless of the number of events, occurrences, or claims giving rise to liability, be in excess of the price paid by the purchaser for our product.

Overview

This document describes modem products and its aim is to ease the test, install and disposition.

Note: Though all features are documented here, new features may still be in beta stage at publication and therefore may not yet be validated. Please refer to the Customer Release Note for complete and detailed information regarding beta and validated features at time of release.

Basics

Environment

Assemble the antenna, power adapter, connect the modem to PC via RS-232 serial cable, open the back cover, insert SIM/UIM card, and at last, power on.

Note: Don't insert or remove the SIM/UIM card in power on state.

TOPSCCC TECHNOLOGY CO., LTD.

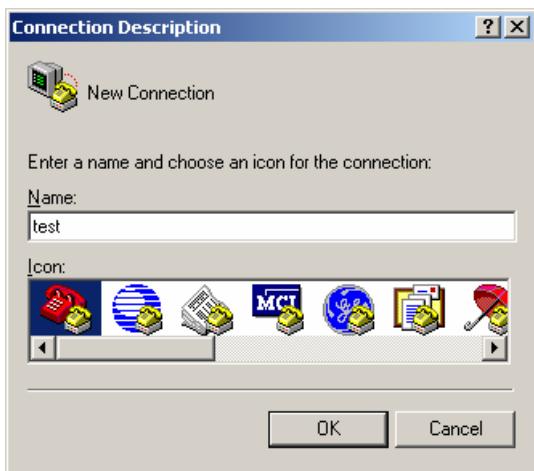

5F., NO.12, LANE 345, YANGGUANG ST.
1114 NEIHU, TAIPEI
TAIWAN

Tel: +88 62 27999080
Fax: +88 62 26585042
info@topsccc.com

Follow these steps to open a HyperTerminal session.

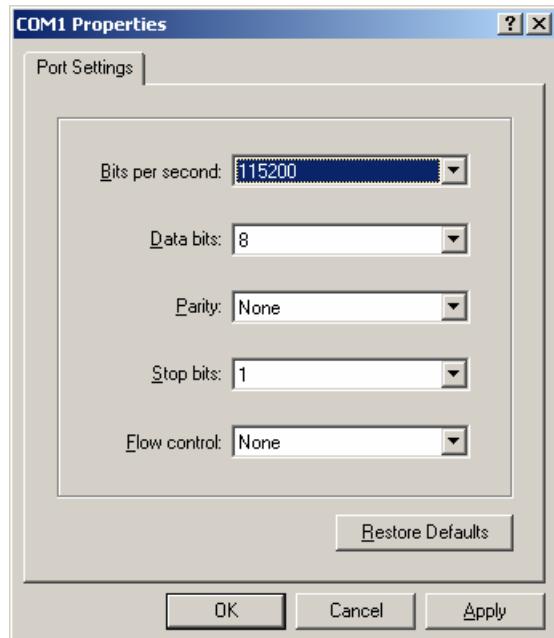

Win XP: <Start> → <Programs> → <Accessories> → <Communications> →
<Hyper Terminal>

Enter the name of the connection and click **OK**.

Choose the communication port and click **OK**.

Set session properties.

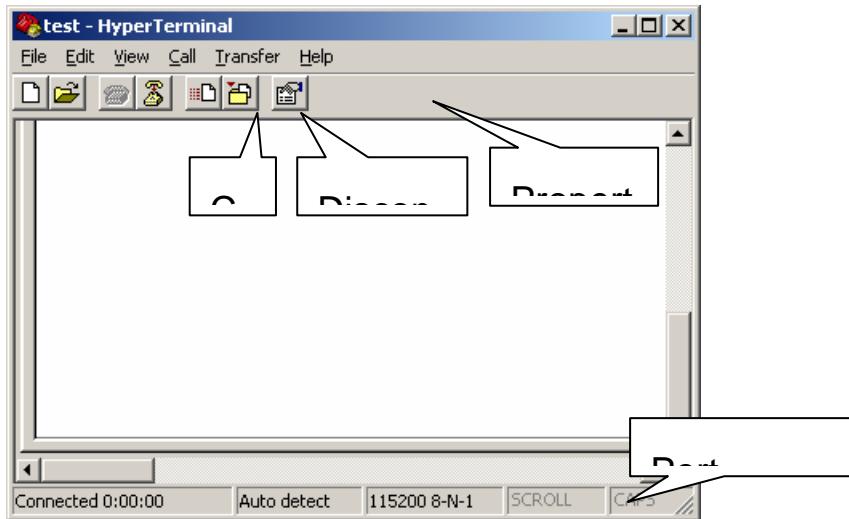

Note: The default session properties are 115200/8/n/1/0 for this device, as shown in above picture.

TOPSCCC TECHNOLOGY CO., LTD.

5F., NO.12, LANE 345, YANGGUANG ST.
114 NEIHU, TAIPEI
TAIWAN

Tel: +88 62 27999080
Fax: +88 62 26585042
info@topsccc.com

After configuration, new Hyper Terminal session window is shown as above.

Click Call button. If the bottom-left corner shows Connected..., then this Hyper Terminal session is connecting to GPRS modem and ready for operation.

AT Command

AT Command Rule

```
AT<CR>           // return Ok
AT+XXX=YYY<CR> // setting parameter
AT+XXX ?<CR>    // query parameter
AT&F<CR>        // restore Modem parameters to factory default
AT&W<CR>        // save parameters
```

Note: the AT command is case-insensitive and prefix by AT and terminate by <CR>

Commonest Command

```
AT+CSQ<CR>      // signal query
AT+IPR?<CR>      // query device baud rate
AT+IPR=115200<CR> // baud rate setting, support
                    115200/57600/38400/19200/9600/4800/2400/1200
ATD0932400821; <CR>          // voice call
ATD932400821<CR>            // data call
ATA<CR>              // incoming call answer
```

```
+++             // switch data mode to command mode
ATO<CR>         // switch command mode back to data mode
ATH<CR>         // hang up
```

info@topsccc.com

SMS Function

Query SMS Center

```
AT+CSCA?<CR>      // query the SMS center number which auto get from network
+CSRA : "+886932400821", 145
OK
```

Send ASCII Message

```
AT+CMGF=1<CR>    // setting SMS mode to Text
OK
AT+CMGS="+886932312918"<CR>
                  // destination number
> Hello, testing!!<Ctrl+Z>
                  // message by ASCII sets, terminated by Ctrl+Z(0X1A)
+CMGS : nnn        // message stamp
OK
```

Note: if no message stamp return, please resend the message again.

Send PDU Message

```
AT+CMGF=0<CR>    // setting SMS mode to PDU
OK
AT+CMGS=21<CR>   // PDU length (Byte), exclude the initial "00" and terminate
                   character Ctrl+Z(0X1A)
>0031000A8190121392810008A7080041004200430044<Ctrl+Z>
                  // Unicode code, content "ABCD", end by<Ctrl+Z>
+CMGS : nnn        // responded message reference
OK
```

Note: if no message stamp return, please resend the message again.

Select the account and click **Next**.

New Connection Wizard

Internet Account Information

You will need an account name and password to sign in to your Internet account.

Type an ISP account name and password, then write down this information and store it in a safe place. (If you have forgotten an existing account name or password, contact your ISP.)

User name:

Password:

Confirm password:

Use this account name and password when anyone connects to the Internet from this computer

Make this the default Internet connection

Enter the **User name** and **Password** that your ISP assigned to you and click **Next**. E.g. you won't need to enter **User name** and **Password** if your ISP is Chunghwa Telecom Co.,Ltd and wap/wap for China Mobile.
